

Dated:- 01/08/2024

An annual review meeting for the session 2023-24 was held in staff room under the chairmanship of Dr. Rajesh Dhorta, Principal, Govt. Degree College - Kumassain. This meeting was conducted to evaluate students outcomes in various areas, including academics, co-curriculars and extra-curricular activities and extension initiatives. The focus of the meeting was to assess performance, identify challenges, and plan actions for the upcoming academic session aimed at achieving excellence. The following members were present in the meeting:-

- 1) Prof. Versha Verma 
- 2) Dr. Bhushan Azad 
- 3) Dr. Ashish K. Chaudhan
- 4) Prof. Dimple Thakur 
- 5) Prof. Sheenam Rajta 
- 6) Prof. Leena Sharma 

Key Areas of Evaluation:-

1. Academic Performance

→ Review of Examination results and assessment scores

Class	Appeared	Passed	Pass Percentage
B. Com - I	05	05	100%
B. Com - II	NIL	NIL	NIL
B. Com - III	06	06	100%
B.A. - I	45	37	82.22%
B.A. - II	35	32	91.43%
B.A. - III	36	34	94.44%

2. Co-curricular Activities

During the 2023-24 session students participated in

Various club and society activities, including the ECO Club, Road Safety Club, NSS, R & R, Red Ribbon Club and subject societies, despite the college being housed in temporary tin structures.

3. Extra-Curricular Activities:-

The college is operating in temporary sheds due to inadequate infrastructural facilities on campus. As a result students are unable to participate in intercollege cultural and sports events. However, the college still manages to organise an annual athletics meet for students despite not having a post for physical education.

4. Extension Activities:-

The college's community engagement and outreach programs include a rally organised by Road Safety Club to promote road safety, along with the distribution of informative pamphlets. Additionally, the NSS Unit held a rally and submitted a memorandum to SDM Kumarsain concerning waste disposal in Kumarsain Town. Furthermore, the R & R Unit visited the Nisha Mukti Kendra at Matyana as part of the Nischaya Project.

Actions for next Academic Session:-

I) Enhancing Academic Support

→ With the new campus of the college ready, we are hopeful to move there soon. Currently, in the temporary sheds, we are unable to effectively integrate technology into our

education. However we are optimistic that in the upcoming session, we will be able to enhance our educational offerings through the use of technology.

→ In our college, students currently have limited subject options. In the upcoming session, we plan to reach out to higher authorities to request the addition of more subjects, including Economics, Physical Education and Geography.

II) Expanding Co-curricular Opportunities:-

→ In the new campus, we will introduce several new clubs including a Photography Club and a Book Readers Club. The Photography Club will provide students with opportunities to explore their creativity, learn photography techniques and participate in exhibitions. Meanwhile, the Book Readers Club will encourage a love for reading by discussions around various genres, hosting author talks and organising book reviews. These clubs aim to enhance student engagement, promote collaborations and support personal development in a vibrant campus environment.

III) Promoting Extra-curricular Engagement:-

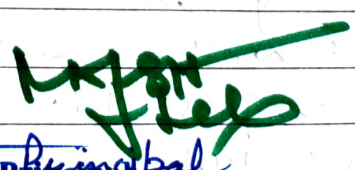

In the 2024-25 session, as we transition to the new campus with ample space, the college will offer students increased opportunities in cultural and sports activities. The college will actively encourage participation in inter-college sports and cultural events and will also provide

facilities for both indoor and outdoor games.

The annual review meeting for the session 2023-24, chaired by Dr. Rajesh Dhotra, provide a comprehensive evaluation of student outcomes across academics, co-curricular and extra-curricular activities and extension activities. Despite operating in temporary structures, the college has demonstrated resilience and commitment to student engagement and community involvement.

Key highlight included the impressive academic performance in several classes, active participation in various clubs and societies, successful outreach programs that promote social responsibility. Moving forward, the anticipated transition to the new campus presents a significant opportunity to enhance educational offerings, expand subject options and increase engagement in cultural and sports activities.

The meeting concluded with a commitment to continuous improvement and collaboration among all stakeholders to ensure the best outcomes for our students in the future.
